

# KÖRPERCREME

Fast absorbing care (body lotion)

**A good body cream should be absorbed rapidly and treat the skin with a number of caring elements, leaving the skin silky and soft. RyBeauty Body Cream (also called body lotion) allows your skin this indulgence.**

RyBeauty Body Cream gives your skin the moisture it requires and cares for it with valuable, natural substances (natural cosmetics). Four organic oils i.e. organic olive oil, organic avocado oil, organic sunflower oil and organic sea buckthorn pulp oil ensure gentle protection for your skin, prevent it from drying out and support its regeneration.

**Note:** In the summer and the cold winter, our sensitive requires extra care. Take a generous amount of our natural Body Lotion and mix it with three pumps of Eye Serum and apply this mixture to your neckline. Then place a film over this area and cover the body with a warm towel. After ten minutes, the skin is completely de-wrinkled, delicate and beautiful. This will guarantee that the next party in your new dress will be a real "show-stopper".

## Active ingredients:

**Organic shea butter:** contains a high proportion of allantoin which has anti-inflammatory, regenerative and healing properties. Regulates the moisture of the skin and reduces itching.

**Organic avocado oil:** Particularly gentle for sensitive skin and prevents it from drying out

**Organic sea buckthorn pulp oil:** Sea buckthorn oil has a nurturing and regenerative effect, it promotes epithelialisation and granulation.

**Sunflower oil:** supports skin regeneration, makes the skin smooth and silky. Supports the formation of the skin's hydrolipid layer.

**Organic olive oil:** supports skin regeneration, makes the skin smooth and silky. Supports the formation of the skin's hydrolipid layer.

**Organic aloe vera:** is moisturising and soothes weathered, irritated skin.

## Plankton extract

A special feature of the RyBeauty Cosmetics Range is the plankton extract which is taken from **marine plankton**. The following effects have been proven in studies: It improves the skin's physical barrier, its chemical barrier and supports rapid regeneration of the skin's hydrolipid layer.

## Ingredients from the sea - for healthy skin!

## The five pillars of RyBeauty Cosmetics

1. Care and repair: The ingredients of aloe vera and vitamin E ensure a gentle treatment and provide the body with the substances it requires for its own regeneration processes.
2. Protection: Olive oil, sunflower oil and, in particular, plankton extract strengthen the skin's protective layer.

# KÖRPERCREME

Fast absorbing care (body lotion)

3. Anti-ageing: The moisturising ingredients help to produce smoother skin.
4. Natural cosmetics: With the "Nature" seal, we confirm that our products meet 100 % of the requirements for natural cosmetics.
5. Hypoallergenic: Only well-tolerated substances are used in the products. The products have been dermatologically tested.

As with **all RyBeauty Products** our Body Cream is

- free from petrochemicals and mineral oils
- free from paraffin
- free from silicon oils
- free from petrochemical substances
- free from synthetic fragrances
- free from sodium-laureth-sulphates and sodium-lauryl-sulphates
- Natural cosmetics given the Natrue seal of approval
- Dermatologically tested on skin
- free from allergens
- free from preservatives
- with plankton extract - the power of the sea

## Application

Apply to the skin all over the body after a shower or as required

## Skin type

Suitable for all skin types.

## Ingredients
